

Mainland factory in Hebei & Overseas OEM factories

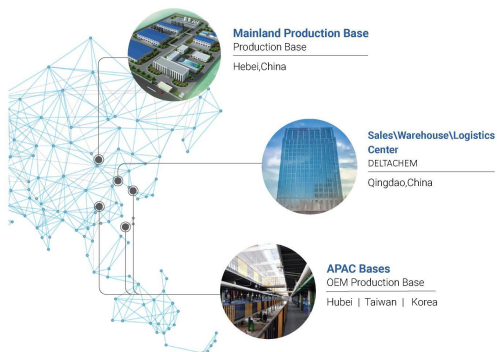

Provide customers with stable products supply.

Professional technical & logistics team

Provide customers with personalized solutions, the storage and logistics service for all kinds of special chemicals.

R&D center located in Israel

Mainly responsible for the production and development of high-end special absorbers, such as Near-Infrared absorber and BlueRay absorber, also provide customized products and service.

Qualifications

FDA, ISO, RoHS, REACH certificates

Quality and Service has gained trust from customers all over the world.

OMNISTAB®

Professional, Reliable

Customized Products & Service

Provide customized products and service to customer according to the special applications and requirements.

Improve current products and develop new products according to customer required absorption bands by signing customization agreements.
